# Sending Test Scores

***\*\*TEST SCORES ARE NO LONGER INCLUDED ON MORTON TRANSCRIPTS - ALL TEST SCORES MUST BE SENT THROUGH THE TESTING AGENCY\*\****

## ACT - actstudent.org

From the time you **register for the ACT** until noon Central Time the Thursday after your test date, you have the option of sending out four free score reports to colleges or scholarship programs. However, this means you'll be sending your scores *without* having actually seen them.

You can also send your ACT scores any time after you receive them by logging into your ACT account or by sending in an order form for additional score reports. In your account, you can see your scores from all ACTs you've taken and create reports of these scores for colleges to see.

**Each score report costs $13** (*even for students eligible for fee waivers*), and each report can only have one test date and one college on it. For example, sending one test score to 10 schools costs $130, while sending four test scores to one school costs $52. Priority reports cost even more: **$16.50 per report.** These **fees add up quickly,** so think carefully about what you want to send where.

## SAT - https://www.collegeboard.org/

***Before Test Day*** - You can send four free score reports to colleges every time you register for the SAT. This is the fastest way to send scores to colleges and scholarship programs—and there's no fee. Many colleges view receiving your scores early as a demonstration of your interest.

***After Test Day -*** You can still send four free score reports to colleges up to ***nine days after*** the test—after that there's a fee for sending score reports ($12 for each report), unless you're eligible for an SAT fee waiver. If you used an SAT fee waiver, you can send unlimited score reports.
